

## BEVERLY HILL

RDA, CBM, Director of Training

- Beverly Hill, RDA, CBM, helps direct Jameson coaches, focusing on
- consultant training at Jameson where she has worked for almost two decades. Along with her time at Jameson, she has been part of the dental and medical industries since 1978.

Hill is a certified business manager, a registered dental assistant and former business administrator in a Jameson-coached practice. She is an instructor for the Jameson Management Institute at New York University College of Dentistry for the Business Management Certification Course.

Since 1990, she has completed professional training in the areas of communication, practice management, marketing, financing and effectiveness. Hill's expertise as a business administrator, as well as her extensive training and long-time experience with Jameson, makes her ability to coach practices toward successful results unparalleled. She is a member of the American Association of Dental Office Managers.

---

"We have spent the last year with Jameson coaches and each have met and exceeded our expectations at every level of involvement. Beverly Hill and the Jameson team gave us real life answers to the questions we posed, set realistic goals, showed us what it took to reach them, gently prodded us when we backslid and helped us reach our goals! I am grateful to them for all of the time and effort they put into this journey with us." —Dr. John M. Daugherty, Bloomington, Minnesota
