

CATHY JAMESON

Founder and CEO

- Cathy Jameson is founder of Jameson Management, an international comprehensive coaching firm with offices in New York, the United Kingdom, Oklahoma and the Caribbean. With a background in education and psychology, she worked alongside her husband, John H. Jameson, DDS, in his Oklahoma dental practice. Their diligent efforts led to great success. Later, working in sales for dental financing organizations and dental software groups, she found herself coaching teams about all of the dental practice's systems. Now, almost two decades later, she has helped dental practices refine the 25 dental business systems for greater success and she has trained a growing team of coaches and speakers to do the same for clients worldwide.

Cathy and her team of 20+ coaches have lectured and consulted with dental professionals in 26 countries. Cathy's firm has changed thousands of lives through not only speaking and coaching, but books, CDs, DVDs and other products. As a speaker, she offers entertaining and educational programs packed with decades of proven practice management systems.

Having earned a bachelor's degree in education from the University of Nebraska in Omaha and then a master's degree in psychology from Goddard College in Vermont, she is now pursuing a doctorate from Walden University. She considers herself a lifelong learner and encourages those around her to be in a constant state of study, growth and action.

Cathy is a member of the National Association of Female Executives and the National Speakers Association. She is an Advisory Board Member for Red Earth of Oklahoma, serves on the Board of Governors for Oklahoma State University Foundation, and is the namesake of an endowed scholarship for the Oklahoma State University College of Education to which she is a recent Hall of Fame nominee.

"Very, very inspirational on many different levels. Cathy Jameson demonstrates a level of excellence that I would like to achieve for myself and my office and staff. She brings a level of science and experience to consulting that sets a new standard for the profession of dental consulting." —Louis Siegelman, DDS, CBM
