

CONNIE JAMESON

Jameson Coach

- Connie Jameson has been with Jameson since 1996 where she is now a coach.
- Jameson received extensive training in mediation, effective communication and leadership, which makes her communication skills impeccable.

Jameson received her degree in sociology with a minor in counseling from East Central University and worked side-by-side with Dr. John H. Jameson as a dental assistant for several years. She has accumulated nearly 20 years of experience as a mediator for the state of Oklahoma, a group facilitator and trainer. Jameson initiates many of our clients in the Jameson consultation experience through the use of effective communication and interactive problem solving. Through her guidance, dental teams explore team development and dynamics of communication and focus on the future of their practice. Her initial consultation lays the foundation on which the Jameson consulting mission is based.

Jameson channels her years of knowledge into one powerful, short course that sparks a level of insight and development within all attendees. We call this course the Advanced Leadership Symposium. It allows Jameson clients to start on a strong foundation by focusing on this very important system.

“What a delight! Her spirit, ethics and knowledge were a tremendous inspiration for our entire staff. The level of enthusiasm has picked up dramatically since she was here. If the next person is in the same league, I will be very satisfied with my investment.” —Dr. Jim Nichols, Lafayette, Louisiana

*“She is an extraordinary leader with wonderful counseling and arbitration skills.”
—Dr. Dale L. Williams, Hewitt, Texas*
