

## NANCY DUKES

BA, RDH, CBM, Director of Clinical Consulting

- Nancy Dukes, BA, RDH, CBM, began her career with Jameson in 1995. She is a senior consultant who coaches the entire consultation process with great expertise.

Dukes is a registered dental hygienist with a bachelors degree in psychology. She has been in the dental field for more than 20 years in both the business and clinical arenas. The dental office in which she served as periodontal therapist has been using Jameson Management systems for more than 15 years. She has received extensive training in the areas of communication, business management and periodontics.

Through her experience in a practice that has one-on-one consulting with Jameson, Dukes has seen the benefits that not only she can provide, but the Jameson Management team and methodology as a whole can provide for taking a dental practice to the next level of success. In the Spring of 2005, Dukes stepped out of her role as periodontal therapist in private practice/consultant and expanded her position at Jameson from senior consultant to director of clinical coaching. Her duties include curriculum development, training of new coaches and consulting with clients.

---

*“Our office recently completed a consultation with Nancy Dukes and the level of enthusiasm in the office is phenomenal. Everyone is working hard to implement the goals and ideas she introduced and we know that Jameson techniques and advice will propel our practice to new heights as we resolve to mesh them into our daily routines. We are very excited and we are looking forward to our next consultation.”*
